

**In the Claims:**

Kindly amend the claims as follows:

1. (Canceled) without prejudice.
2. (New) A self-propelled vehicle for performing support or service work on airplanes comprising a vehicle having a bottom, a set of wheels movably disposed in a first position on the vehicle, a first distance between the bottom of the vehicle and a surface on which the vehicle is supported, a second distance between the bottom of the vehicle and the surface, the second distance formed by moving the set of wheels to a second position such that the vehicle is raised from the surface, wherein the second distance is substantially greater than the first distance.
3. (New) A vehicle comprising a bottom and a set of wheels movably disposed between a first position and a second position with respect to the vehicle, wherein in the first position the set of wheels extend above the bottom of the vehicle and in the second position the set of wheels are lowered to extend under the bottom of the vehicle such that the vehicle is raised from a support surface supporting the vehicle.
4. (New) The vehicle of claim 3, further comprising a tow bar for towing the vehicle as a trailer.
